# If You Have Sensory and/or Mobility Impairments . . .

## Please Join Our Community Participation Study!

### What's involved?

- You will complete a web-based survey that takes approximately one hour. *All information will be kept confidential and no connection between you and your survey answers will be made.*
- **You will be reimbursed for your time and effort.** (*Choose a personal check or gift certificate to Target or Walgreens.*)

### You are eligible if you:

- Have either a mobility impairment, a visual impairment, or a hearing impairment
- AND**
- Are between the ages of 18 and 75
- Live in the community
- Have access to a computer
- Can read at or above the 6th grade level
- Can enter responses into a web-based survey or direct another individual to enter your responses

**Join now!**

### Purpose of the study

This research aims to understand what people with sensory and/or mobility impairments do in their daily life, how their environment affects their community participation and what, if any, help they need to complete these activities.

**You can help us  
translate research into  
enhanced community  
participation.**

### To join the study or for more information

Please visit the Enabling Mobility Center at [enablemob.wustl.edu](http://enablemob.wustl.edu) and follow instructions for the Community Participation Study.

If you do not have access to a computer, call Jessica Dashner, Research Associate, at 314-286-1640.

If you have any questions about this study, contact Dr. David B. Gray at [graydb@wusm.wustl.edu](mailto:graydb@wusm.wustl.edu).
